EDUCATION

Maharaja Agrasen Himalayan Garhwal University   **Pauri Garhwal, Uttarakhand**
BCA   *Expected Graduation 2025*
CGPA: 7

PROFILE SUMMARY

Targeting **Full stack Web App Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- MERN stack **(My Sql, Express.js, React, Node.js)** with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

PROJECTS

Online Test App Application with Authentication Payment Integration   J**uly 2024- Current**
Tools: React, Express, Node, API Integration

Developed a comprehensive Online Test App that allows users to register, authenticate, manage their accounts, and handle payments seamlessly.

Responsibilities:

- **Front-end Development:** Created a responsive and intuitive user interface using React, ensuring an engaging user experience.
- **Authentication and Authorization:** Implemented secure user authentication and authorization mechanisms with Node, safeguarding access to the application.
- **Backend Management:** Efficiently managed data storage, retrieval, and user management using Express and Node.
- **API Integration:** Integrated various APIs to enhance the application's functionality and user experience.

E commerce website   **April 2024**

Technologies Used: HTML, CSS, JavaScript, Node.js, Express, SQL
Project Description: Developed a fully functional e-commerce website from scratch, implementing both the front-end and back-end components to deliver a seamless online shopping experience.

Front-End Development:

- Designed and implemented a responsive user interface using HTML, CSS, and JavaScript.
- Developed dynamic product listing and detail pages with interactive features such as add-to-cart and product reviews.
- Created a shopping cart system to manage products selected by the user, allowing for quantity updates and item removal.
- Ensured cross-browser compatibility and optimized performance for various devices and screen sizes.

Back-End Development:

- Built a RESTful API using Node.js and Express to handle CRUD operations for products, users, and orders.
- Implemented user authentication and authorization, including registration, login, and session management.

- Managed product inventory and order processing, ensuring accurate tracking and updating of stock levels.
- Integrated payment gateway to securely process transactions and send order confirmations.

ACADEMIC ACHEIVEMENTS

- Earned a certification in Full Stack Development, demonstrating proficiency in MERN stack technologies and project management.

SKILLS

Programming: Python, JavaScript, HTML/CSS, SQL, Node.js, React.js, C++, C,Angular,Express
